S.O.D.

Art Unit: 1771

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 3-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over US 2003/0203193 to Murata et al . The reference discloses (Note particularly the Abstract, Fig. 1, Paragraphs 0003, 0008, 0014, 0015, 0024, 0032-0034, 0036, 0037, 0054, Table 1, Claim 1), in certain embodiments, virtually an anticipation of applicants' newly claimed genus of one and two sided adhesive tapes except for being directed to an adhesive "sheet" instead of tape and for also not specifically setting forth the two newly claimed species (PET and polypropylene) of "peeling sheet", i.e. release sheets (note that the reference calls such well known elements in the coated adhesive art "separator" (Paragraph 0036)). Note that applicants' newly utilized nomenclature of "target surface", although not utilized in the specification, refers to the area of the adhesive layer(s) which is to be bonded to a desired substrate, and that the reference is clearly directed (Paragraph 0037) to either single or double side adhesive coated sheets. With respect to the newly presented center line average roughness values note that, e.g. Paragraph 0032 clearly teaches the newly claimed range. Finally, with respect to the dependent claims these all teach a variety of conventional materials, adhesives

and the like which, if they are not either expressly or inherently disclosed, are each believed to be obvious modifications to one of ordinary skill, in the absence of unexpected results.

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
